

Kina Banks' vision is to be the most dynamic, progressive, and accessible financial services company in Papua New Guinea. In 2019, Expressway Signs was engaged by Kina Bank directly to design, engineer, manufacture, and install new branding to their iconic Port Moresby location on Douglas Street. The building was previously known as the Deloitte Tower and has now been renamed, Kina Haus.

Kina Haus happens to be the tallest building in Papua New Guinea. The building is over 18 stories high and has remarkable views of the iconic Port Moresby Harbour and Harbour City. The building offers tenants the convenience of walking to government offices, non-governmental multinational organizations, banking and finance institutions, shopping centers, and a multitude of restaurants, cafes, hotels, and other leisure spots to choose from. The Signage installed by us is surrounding all four sides of the building and is evident day and night. It's safe to say that the Kina Bank brand dominates Port Moresby.
